Summary

As a Software Engineer, Kisembo Bangirana Rodgers is a technically skilled and driven individual with a passion for problem-solving and delivering quality software solutions. With experience in various programming languages and a solid understanding of software development methodologies, Kisembo has the ability to work effectively in fast-paced and dynamic environments. He is known for his strong communication skills, allowing him to effectively collaborate with cross-functional teams, and his attention to detail, ensuring that software is delivered with a high degree of accuracy. With a track record of delivering successful projects, Kisembo is an asset to any organization and continues to drive growth and innovation in the field of software engineering.

Experience

Data Engineer

Powellpay LTD

Mar 2023 - Present (4 months)

Am extremely happy to work as an intern at Powell Pay and the contributions i made as a database developer intern have been significant. As a database developer, my role is typically involved in working with data infrastructure, processing, and analysis to support the company's data-driven initiatives, which we did and we are still doing, me and my team

Flutter Developer

studyHop inc

Nov 2022 - Feb 2023 (4 months)

At studyHop i contributed the UI/UX Enhancements forexample improving navigation, optimizing the user flow and incorporating visual elements to enhance usability. Secondly, Frontend Development where we used dart as a programming language. These helped scale up the downloads of the app and in turn increased the DAUs, thus boosting the financial muscles of the company.

Education

Makerere University

Bachelor of science in software Engineering , Computer Programming, Specific Applications

2021 - 2024
